**PRACTICE/TEAM ACTIVITY RECORD FORM_JUNE 10, 2020**

| Team Name: | | Coach Name & Contact Info: | | County: | |
|---|---|---|---|---|---|

This form should be used weekly in an effort to mitigate risk and contact trace, should it become necessary. Upon the arrival at each team activity, coaches should conduct health checks and temperature checks, and both should be recorded for each day. **Health checks (HC) include asking if the player feels ill in any way, including a fever, cough, sore throat, body aches, fatigue, chest tightness, shortness of breath, trouble breathing, persistent pain or pressure in the chest, or bluish lips or face. and a temperature check.** Any player that has a fever of 100.3 degrees or higher should leave immediately and consult a doctor or health care professional. This form should be kept on file for a minimum of 3 months, in an effort to help local health departments contain spread and map exposure patterns.

| Date & Activity (Practice (P) or Game (G): | | | | | | | | | | | | | | |
